About Us.

Introduction

MashTech Logistics is a technology-driven freight brokerage company, connecting shippers and carriers across the U.S. with speed, integrity, and personalized service. We simplify supply chain complexities with modern logistics tools and dedicated professionals.

What sets us apart:

We verify carriers systematically using MC numbers and insurance details.

Mission & Vision:

To deliver freight with speed, transparency, and care, building partnerships that drive long-term success.

To become a trusted leader in innovative logistics brokerage, empowering our clients through data-driven decisions and human connection.

CORE VALUES.

01.

EFFICIENCY

We believe in smart work that saves time and resources. By streamlining workflows, we reduce waste and increase output. Every process is designed with precision and purpose. Our goal is to deliver excellence—faster and better.

02.

INTEGRITY

We operate with complete honesty, even when no one is watching. Our decisions are rooted in ethics and transparency. Trust is earned through consistent and principled actions. Integrity is not just a value—it's our way of doing business.

03.

INNOVATION

We embrace change and constantly explore new possibilities. Creative thinking fuels our solutions and shapes our future. We don't follow trends—we set them. Innovation drives our relevance and resilience in a dynamic world.

04.

PARTNERSHIP

We value relationships built on respect, trust, and collaboration. Together with our clients and team, we achieve shared success. Partnership means listening, understanding, and evolving together. We win when everyone around us grows and thrives.

05.

ACCOUNTABILITY

We take full responsibility for our actions, decisions, and results. Success and setbacks are both met with ownership. Accountability builds credibility and fosters growth. We don't make excuses—we make it right.

AIR LOGISTICS:

Fast. Secure. Time-Critical Logistics.

When speed is your priority, our Air Freight services offer fast and efficient cargo movement around the globe. We work with leading global airlines and air hubs to ensure your shipments arrive on time, every time.

Express air freight & Standard air cargo

At Mash Tech Logistics, we offer fast and secure air freight services tailored to meet time-sensitive delivery needs. From urgent shipments to scheduled cargo, our network ensures reliable and efficient transport across domestic and international routes.

Customs clearance & airport to airport, door to door

Stay informed at every step with our advanced tracking systems and dedicated customer support. We prioritize transparency and responsiveness, so you're never left guessing about your shipment's status.

LAND LOGISTICS:

Freight Brokerage, FTL & LTL

Matching the right carrier for your freight—on time and within budget. FTL (Full Truckload) & LTL (Less Than Truckload). Solutions tailored to your shipment size and timeline.

Specialized & Sensitive Freight

Temperature-Controlled Freight

Ensuring safety for perishable and temperature-sensitive goods.

Expedited & Time-Critical Shipments

For urgent deliveries when every second counts.

Port & Complex Logistics

Drayage & Port Services

Seamless movement of containers from ports to inland destinations.

Specialized Freight

Handling oversized, hazardous, or complex freight with expertise.

SEA LOGISTICS:

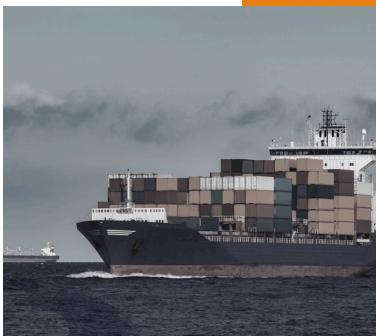

Reliable. Economical. Global Reach.

Our Ocean Freight solutions are designed to handle the demands of global trade with precision, scalability, and cost-efficiency. Whether you're shipping full container loads (FCL) or less-than-container loads (LCL), we provide seamless, end-to-end logistics support from port to port or door to door.

FCL & LCL

- FCL (Full Container Load): Dedicated containers for large-volume shipments with flexible scheduling and routing.
- LCL (Less-than-Container Load): Cost-effective solution for smaller shipments consolidated with others to save money.

Reefer Containers, Break Bulk & Project Cargo:

- Temperature-controlled shipping for perishable goods.
- Break Bulk & Project Cargo: Specialized handling for oversized or irregular freight.

Roll-on/Roll-off (RoRo):

- Vehicle and machinery shipping with secure, efficient loading.
- **Port-to-Port & Door-to-Door Delivery:** Tailored logistics from origin to destination, including customs clearance.
- **Freight Insurance & Documentation Support:** Peace of mind through insured cargo and complete paperwork handling.

Integrated Multimodal Solutions.

- Need a combination of both?
- We specialize in multimodal freight solutions, combining air, sea, and land transport to deliver the best balance of speed, cost, and reliability.
- Perfect for complex supply chains or unique delivery timelines.

Industries We Serve.

- Automotive & Machinery
- Pharmaceuticals & Healthcare
- Electronics & Technology
- Retail & Consumer Goods
- Food & Beverage
- Industrial Equipment
- E-commerce & B2B Fulfillment

Key Features.

- **24/7 COMMUNICATION & SUPPORT**
- **NATIONWIDE CARRIER NETWORK**
- **REAL-TIME FREIGHT TRACKING**
- **COMPETITIVE & TRANSPARENT PRICING**
- **EXPERIENCED, CERTIFIED BROKERS**
- **COMPLIANCE FIRST – INSURED & COURT-SAFE CONTRACTS**

WHY CHOOSE US:

Tech-Driven Transparency

We leverage advanced freight tech and real-time tracking tools to give our clients complete visibility into every shipment.

Personalized Logistics Solutions

Unlike larger brokers that treat clients like a number, we tailor every solution to your needs.

Dedicated Account Managers

Every client gets a single point of contact for fast communication, problem-solving, and consistent service.

24/7 Availability

Logistics don't sleep—and neither do we. Our team is available 24/7/365 to ensure your loads are moving.

Pre-Vetted Carrier Network

We only work with insured, FMCSA-compliant, and performance-verified carriers.

Fast Quote Turnarounds

We understand time is money. That's why we respond to quote requests within minutes, not hours.

Capacity When It Counts

We're built to scale with your business. Whether you're facing seasonal spikes or last-minute hauls, we tap into a flexible network to get you covered.

Compliance & Claims Expertise

From COIs to BOLs and freight claims, our compliance-first approach protects your freight and reduces liability.

Eco-Conscious Options

We're committed to greener freight. Ask about carbon-offset shipping, route optimization, and partnerships with carriers that use alternative fuels or electric fleets.
